PALLET RACKING

HEAVY DUTY

IN ARESTANT WE PRODUCE A SOLID AND FLEXIBLE SPACE, DESIGNED TO BE SHARED WITH OUR CUSTOMERS, THE INDUSTRIAL STORAGE EQUIPMENT SPECIALISTS.

THE PALLET RACKING  gives the best solution for different storage needs for products in pallets. We offer a wide range of references and accessories. POSSIBILITY OF DRIVE-IN AND DYNAMIC RACKS IS OFFERED.

WE HAVE A WIDE EXPERIENCE at national and international level, supported by a long tradition in the steel sector and racks particularly: FROM THE HIGHEST QUALITY STEEL, and working with the most innovative and technological means existing in our new production plant in Tudela (Navarra), we ensure the accomplishment of our customers' needs with a complete reliability.

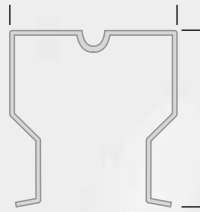

The design of the pallet racking  has been made following the FEM RECOMMENDATIONS, and with the priority of making easy the installation to the storage specialists.
